### Back From CORSA

**"Corvairs on the Prairie" Convention**  
**Springfield, IL July 12-16, 2016**

Well, we made it back from the convention with a lot more items on the returning trip. Luckily, we had our 20' trailer and Toyota Tundra to load up with parts. We were happy to help out our friends, Joe and Jeff, with items they needed to bring back to Pennsylvania.

We arrived at the convention on Monday and many cars were already being admired by many people. The hotel and facilities were outstanding and everyone was so accommodating.

On Tuesday, we got up and headed right down to registration and then to Clark's to purchase many items. We were there for quite some time and even had to borrow a large commercial equipment cart to get all the items back to the truck. 😊

Most of the week, we participated in events and tech meetings. Lou participated in the Auto Cross and had a blast. I attended the Chapter Editors and Webmasters meeting and received a lot of great information.

On Friday night, we attended the Banquet & Awards. Unfortunately, we did not win the Outstanding Newsletter Award. "The Drip Line" from Pike's Peak Corvair Club won. *Congratulations to them for a great newsletter!*

We are looking forward to next year for "The Vairs Stop Here" in Independence, Missouri, June 27 through July 1, 2017. Update your calendars now! Check out our photos on page 11.

## SECRETARY'S MINUTES FOR JULY 2016

Short Meeting July 9<sup>th</sup> at the Picnic.

Meeting was called to order by John Berkheimer, President.

We had a discussion on the mailing of tickets for the Visa Card Raffle. It was decided to mail two sheets, six tickets plus cover letter to all club members. We also plan to include 1 sheet, 3 tickets in the August newsletter with instructions to make copies for additional tickets.

I made a motion to distribute the remaining antenna flags to members who attend events with their cars since they are not selling. Motion seconded by John Johnson and approved.

Most members did not drive their corvairs to the picnic due to the very hot weather. I drove mine from garage to driveway and Steve and Belinda Sabaka came in their corvair.

I mentioned that Norm Masenheimer gave me a membership list for 1987. There were 11 members on that list that are still members. If anyone has an older membership list, I would be very interested in receiving a copy. The club was formed in 1973. I joined in the mid to late 70's, not sure exactly what year.

### Tech Tip

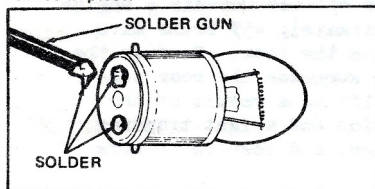

#### BETTER BULB CONTACT

*Submitted by Lou Trimper*

Many times when a light bulb is replaced in a parking light, taillight or turn signal light, the bulb will not light unless it is pushed in against the socket. This is a common problem on all lights that are subjected to road splash. Apparently the springs pushing up against the contacts become weakened or the contacts flatten down a bit.

To lick this trouble, put a drop of solder on the contact points on the base of the bulb. This can be done very quickly with an electric soldering gun, and makes it unnecessary to fiddle around with a socket that is hard to reach. If a little to much solder is added to the bulb contact, the excess can be taken off quickly with a file until the bulb can be locked in place.
